Subject: First Project Assignment – Restaurant Website (HTML & CSS)

Dear Students,

Your **first project work** is to design and develop a **Restaurant Website** using all the concepts we've covered in **HTML and CSS**.

Project Requirements:

☑ **Navigation Bar** – Must contain **at least three links** (e.g., Home, Menu, About, Contact).
☑ **Linked Pages** – Each navigation link should direct to a separate webpage (also styled with CSS).
☑ **Main Sections** – Include structured content (e.g., hero banner, featured dishes, testimonials).
☑ **Footer** – Add essential details (copyright, social media links, contact info).

Design Inspiration:

The image below provides a **reference layout** for your website. Feel free to get creative while ensuring functionality and clean styling!
